## 1. What Are Cookies

Cookies are small text files placed on your device by a website. They are widely used to make websites work efficiently, to remember your preferences, and to provide reporting information.

Cookies set by the website you are visiting are called “first-party cookies.” Cookies set by parties other than the website are called “third-party cookies.” Third-party cookies enable features or functionality provided by external services (such as analytics).

---

## 2. How We Use Cookies

We use cookies for the following purposes:

- **Essential operation:** To authenticate users, maintain sessions, and prevent fraud.
- **Preferences:** To remember your settings and consent choices.
- **Analytics:** To understand how visitors use the Website so we can improve it.

We do not use cookies for advertising, retargeting, or cross-site behavioral tracking.

---

Google Analytics is provided by Google LLC. Google may process analytics data on servers located outside the European Economic Area (EEA). Where required, Google relies on approved international data transfer mechanisms such as the European Commission's Standard Contractual Clauses. For details on how Google handles data, see Google's Privacy Policy

(<https://policies.google.com/privacy>) and the Google Analytics terms (<https://marketingplatform.google.com/about/analytics/terms/us/>).

- **Accept all cookies:** Enables all cookie categories, including analytics.
- **Reject non-essential cookies:** Only strictly necessary cookies will be set.

Some browsers send a “Do Not Track” (DNT) signal. There is no industry standard for how websites should respond to DNT signals.

We honor the Global Privacy Control (GPC) signal where required by law. If we detect a GPC signal from your browser, we will treat it as a request to opt out of non-essential cookies and any data sharing that may constitute a “sale” under applicable law.

If we add additional third-party cookies in the future, we will update this Cookie Policy and request your consent where required.

Additional third-party services may set cookies strictly for operational or security purposes (such as hosting, fraud prevention, or payment processing). These services do not use cookies for advertising or cross-site tracking.
